

AWARD DECISION

Dnr 2016/21

Public procurement of Manager Analysis Software

Fjärde AP-fonden has conducted a public procurement of a platform for Manager Analysis Software, using the negotiated procedure with prior notification, as regulated in Chapter 4 Article 2 point 3 in the Public Procurement Act (lag (2007:1091) om offentlig upphandling (LOU)). The reason for using the negotiated procedure with prior notification is that the software being procured is of such a kind that it is not possible to prepare sufficiently precise specifications in order to implement the procurement by choosing the best tender according to the provisions for open or restricted procedures.

Following the Request for Information (RFI) four applications were submitted. The applicants are listed in the Procurement Report (enclosed).

Two applications fulfilled all qualification criteria laid down in the RFI, and were invited to participate in the procurement. The Request for Proposal (RFP) was sent to these applicants. At the end of the time for submitting tenders, two tenders had been submitted. All the submitted tenders were found to fulfil all the mandatory requirements (for further information see the enclosed Procurement Report).

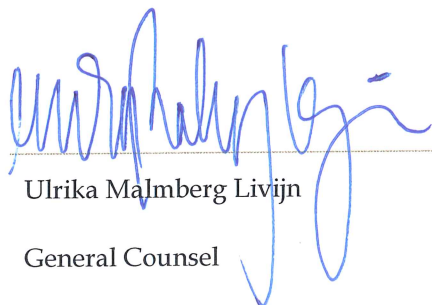

The evaluation of the tenders has been conducted following the evaluation criteria as stated in the RFP (for further information see the enclosed Procurement Report). The evaluation has led to the economically most advantageous tender being selected. Thus Fjärde AP-fonden will enter into a contract with the following tender.

Contract awarded

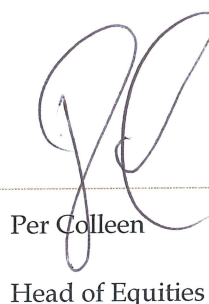

- Novus Partners, Inc.

A ten day stand-still period applies from the day of this Award Decision. The contract can thus be signed on October 11 at the earliest.
